CONTENTS

Interplay of extension and compression in basin formation: introduction
S. Cloetingh, B. D'Argenio, R. Catalano, F. Horvath and W. Sassi 1
Dynamics of intra-plate compressional deformation: the Alpine foreland and other examples
P.A. Ziegler, S. Cloetingh and J.-D. van Wees 7
Palaeostress reconstructions and geodynamics of the Baikal region, Central Asia, Part I. Palaeozoic and Mesozoic pre-rift evolution
D. Delvaux, R. Moeys, G. Stapel, A. Melnikov and V. Ermikov 61
Palaeostress analysis, a contribution to the understanding of basin tectonics and geodynamic evolution. Example of the Permian/Cenozoic tectonics of Great Britain and geodynamic implications in western Europe
C. Hibsch, J.-J. Jarrige, E.M. Cushing and J. Mercier 103
Lithospheric bulges recorded by regional unconformities. The case of Mesozoic–Tertiary Apulia
A. Mindszenty, B. D'Argenio and G. Aiello. 137
Quantitative modelling of basin and rheological evolution of the Iberian Basin (Central Spain): implications for lithospheric dynamics of intraplate extension and inversion
J.D. van Wees and R.A. Stephenson 163
Tectonic evolution of the Mid-Polish Trough: modelling implications and significance for central European geology
R. Dadlez, M. Narkiewicz, R.A. Stephenson, M.T.M. Visser and J.-D. van Wees 179
Triassic and Jurassic structural development along the Tornquist Zone, Denmark
T.E. Mogensen 197
Structure of the Møre Basin, mid-Norway continental margin
I. Grunnaleite and R.H. Gabrielsen. 221
Geological remarks on the relationships between extension and convergent geodynamic settings
C. Doglioni. 253
Tectono-stratigraphic modelling of the Sardinian margin of the Tyrrhenian Sea
G. Spadini, G. Bertotti and S. Cloetingh 269
Basin formation and inversion tectonics on top of the Egadi foreland thrust belt (NW Strait of Sicily)
F. Gamberi and A. Argnani 285
Plio–Pleistocene extensional tectonics in the Western Peloritani area and its offshore (northeastern Sicily)
F. Nigro and A. Sulli 295
Tectonic history of the Lagonegro Domain and Southern Apennine thrust belt evolution
E. Marsella, A.W. Bally, G. Cippitelli, B. D'Argenio and G. Pappone. 307
Thrust tectonics in the Picentini Mountains, Southern Apennines, Italy
G. Pappone and L. Ferranti 331
Different foreland basins in Italy: examples from the central and southern Adriatic Sea
G. de Alteriis 349
Miocene unconformities in the Central Apennines: geodynamic significance and sedimentary basin evolution
P. Cipollari and D. Cosentino 375
Crustal shortening and duplication of the Moho in the Northern Apennines: a view from seismic refraction data
F. Ponziani, R. De Franco, G. Minelli, G. Biella, C. Federico and G. Pialli 391
Thrust development in the eastern Jura Mountains related to pre-existing extensional structures
Th. Noack 419
Quantitative subsidence analysis and forward modelling of the Vienna and Danube basins: thin-skinned versus thick-skinned extension
A. Lankreijer, M. Kováč, S. Cloetingh, P. Pitoňák, M. Hlôška and C. Biermann 433
The East Slovakian Basin — A complex back-arc basin
M. Kováč, P. Kováč, F. Marko, S. Karoli and J. Janočko 453
Asthenospheric structure beneath a Neogene basin in southeast Hungary
K. Posgay, T. Bodoky, E. Hegedûs, S. Kovácsvölgyi, L. Lenkey, P. Szafián, E. Takács, Z. Tímár and G. Varga 467
